CERTIFICATE PROGRAMS

Experiential learning is LdM's main tool to foster students' future professional development.

Istituto Lorenzo de' Medici offers Certificate Programs designed to develop student creativity, artistic talent, and technical skills within structured plans of study. Combining a strong theoretical base with practical work for the pursuit of a real profession, students can choose among:

- *SEMESTER CERTIFICATES*
- *ONE-YEAR CERTIFICATES*
- *PROFESSIONAL / ADVANCED CERTIFICATES*
(*ONE- AND TWO-YEAR PROGRAMS*)

SEMESTER CERTIFICATES give students the opportunity to gather the professional skills and the theoretical underpinnings of their field of choice in a single semester. These certificates address specific areas that lead to a variety of possible career options, with a balance of courses that help students advance in their field of choice. Semester certificates consist mainly of three core courses and a choice of two out of three/four track courses (Italian language study is encouraged but no language courses are required). Semester Certificate sessions start fall and spring semesters.

ONE-YEAR CERTIFICATES offer a comprehensive course structure addressing students' own professional goals. The class selection has been pre-planned in order to allow students to follow the most appropriate course sequence in the area of study that they wish to pursue. Sessions start fall semester only. Students with prior knowledge of the selected field of study may be admitted to the second semester (in spring only), after submitting a portfolio of their work to be assessed and approved.

PROFESSIONAL / ADVANCED CERTIFICATES are designed for students who have a solid background in the area of study. Students can combine the One-Year Certificate and the Professional/Advanced Certificate, or apply to either one according to their experience and education levels. Students who have successfully completed the One-Year Certificate may progress into the Professional/Advanced Certificate (according to the program selected) completing the two-year program. Students applying for the Professional/Advanced Certificate Program must provide evidence of their background in the selected area. An admissions committee will review the application and accept only those students who meet the entry requirements. Sessions for Professional/Advanced certificates start fall semester only.

NEARLY 50 YEARS OF GROWTH AND EXPERIENCE

Founded in 1973 in Florence, LdM is among Italy's most distinctive and established international institutes for higher education. With nearly 50 years of growth and experience, LdM offers more than 500 different courses in 36 academic subject areas, focused on Creative Arts, Design, Nutrition, Italian Gastronomy and Culture, Liberal Arts and Social Sciences, Italian Language and Culture, Science and Mathematics, and Agriculture.

Excluding the academic terms affected by COVID-19, LdM hosts an average of more than 3000 students per year from all over the world. With its main campus in Florence, it also has premises in Tuscania (Lazio region), providing the opportunity for students to study abroad in multiple locations and truly experience the cultural richness of both historical and contemporary Italy. At LdM, formal university-level learning is integrated with an emphasis on personal growth, individual engagement, and community responsibility, offering educational opportunities deeply rooted in the surrounding environment.

OUR MISSION

Istituto Lorenzo de' Medici is committed to delivering a high-quality international learning experience through which students advance along their formal educational paths, develop their creativity, realize their own potential, and empower themselves to impact the world around them.

THE FACULTY

All LdM Certificate courses are taught by professors who are qualified professionals and renowned artisans with extensive experience in the fields and industries of the related certificate sector.

After my graduation, I decided to pursue my passion for jewelry design and joined LdM in Florence, well known as *the city of art*.

It was one of the most exciting and inspiring experiences I've ever had. I learned various jewelry aspects from history to design concepts and handcrafted my own collections.
